Handout Module 3 (WP4),

Pedagogically sound AI integration for language teaching and interaction

TASK 2

Concept: A conscious bridge must be developed between pedagogy and technology to introduce and use AI tools in the curriculum and/or classroom. Often there is an emphasis on the technology while the pedagogical aspect of SLA is left behind or unknown. Awareness raising for the Common European Framework for Foreign Languages is essential to illustrate how pedagogy drives the use of technology and not vice versa.

Prior Knowledge: CEFR Descriptors for the B1 – B2 level, Familiarization with DigCompEdu, Basic technology skills

1. **Go to the LanguageTool link: https://languagetool.org/**
2. **Choose the language / dialect.**
3. **Decide on the level the text should represent: B1 or B2.**
4. **Write the text in the appropriate space.**
5. **Use the LanguageTool feedback.**
6. **Evaluate feedback: suggestions and revise.**
7. **Remember that Task 3 will require an expansion of this task.**
